## FAREWELL 2021-22 SPRING Erasmus&Exchange

We said goodbye to our 2021-2022 academic year spring semester students. "What we call the beginning is often the end. And to make an end is to make a beginning. The end is where we start from."

## SULUADA

### Rocky island known as Turkey's Maldives

Suluada is a Mediterranean island of Antalya/Turkey. The name Suluada is a composite word meaning "watery island" referring to fresh water sources of the island. Suluada is likened to Maldives with its white sandy beach and turquoise water.

The fresh water that comes out of the island is believed to be healing throughout history and it is recommended to drink the water here. Transportation to the island is provided by sea from Adrasan/Antalya. After a pleasant 45-minute journey with the excursion boats departing from here, you set foot in Suluada.
